Why Hydrogen Water?

Inner wellness through the latest H₂ Molecular technology.

Producing 900-1100 parts per billion of molecular hydrogen, Aivee Water is rich with sacrificial Hydrogen ions that unites with positively charged molecules, thus transforming the free radicals.

Molecular Hydrogen, the lightest and most abundant element on earth, is the only antioxidant that can enter the cell and neutralize free radicals. Research has found the ability of hydrogen-enriched water to enhance how our bodies feel and function.

How does Aivee Water work?

Step 1: DRINK

The Aivee Water converts regular drinking water into hydrogen rich water.

Step 2: DIFFUSE

Small and soluble, molecular hydrogen speed straight into the power centers of cells, delivering powerful antioxidants.

Step 3: DETOX

Hydrogen is our best defense against free radicals. Detox and reap the benefits of hydrogen water.
